Hi Paul,

I was able to secure an electrical source for the Thursday events.

Thanks again for the generous offer, I really appreciate it.

Aaron

Thanks for checking on this.

That arrangement would work, but we may not end up needing it.
I may have found some electricity for the Thursday events.

I'll let you know tomorrow if we'll need it or not.

Thanks again.

Aaron

Hi All.

I spoke with Mary regarding the Generator.

I was not aware that we have been using this for the Movies in the Park.

Those are on Saturdays.

You need it on Thursdays.

Is it possible that we can store it at the Bid Office for the time that you need it, so that Everyone that needs it can have access to it through the bid office?

For instance, when Movies in the park needs it, they come to get it and bring it back during BID SECURITY hours. 12:00am, I believe, on Saturdays.

And on Thursday's the film festival people can come get it and bring it back....

Please let us know if this is possible.
